<http://tinyurl.com/inmanipadsummit2>

Registration Fee = \$70/person. 1 hour of college credit will be available. Questions can be directed to Kevin Case, Superintendent kcase@usd448.com

iPad Learning Summit

2013

We invite you to join us for an exciting learning opportunity. The day has been planned to provide you with an awesome professional development experience. A few comments from 2012 participants: **This was great. It inspired me. . . This was an amazing day—lots of information and great presenters. . . Great presenters who were very excited about sharing all they know...Makes me want to get back to my room and get busy. . .Presenters were full of wonderful ideas. . . Phenomenal presenters!!**

Session Number	Presenter Name	Description	About the presenter. . .	Intended Audience	Possible Apps Needed or that May Be Demonstrated.
1A	Cheryl Rife & Tamara Padfield	<p>Connecting Media with Technology</p> <p>Cheryl and I have teamed up to collaborate on projects that would incorporate Common Core Standards in the area of Library Media and Technology. Having a team member to share ideas has enhanced our instruction. Students have benefited from this approach and we'd like to share some of the projects we have had students complete.</p>	<p>Cheryl Rife, currently the PK-12 Library Media Specialist, has been an educator for 33 years. She began her teaching career as a 1st and 2nd grade teacher for 17 years before moving into the library.</p> <p>Tamara Padfield, a current Technology Integration Specialist, has been in the field of education for 10 years with six of those years as a 5th Grade teacher. While in the classroom, she participated in a tech-rich grant that allowed her classroom to be in a one-to-one learning environment.</p>	2nd - 6th Grade Teachers, Librarians and Tech Integrationists. Novice to Intermediate Level of Technology	
1B	Keri Maurer & Bentley Richert	During this session several apps will be shared that can be integrated into any content area while supporting the Common Core Standards. The activities that will be shared have been utilized at the 4th grade level. Come ready to brainstorm ideas and activities.	Keri Maurer and Bentley Richert are 4th grade teachers at Inman Elementary. This is their second year of implementing one to one iPads in their classroom.	Third - Fifth grade teachers	BookCreator, Strip Design, Puppet Pals, PicCollage, Keynote
1C	Brandi McWilliams & Kim Baldwin	iPads in the Secondary English Classroom. This session will be dedicated to English teachers primarily, however I think it will be useful for all major content area teachers.	See Individual Bio's for their other session.	7-12 English Teachers/Core Content Teachers	iBooks, Keynote, Pages, Stick Pick, inClass
1D	Paul Erickson Scott Friesen	iPads from an Administrator's Perspective. Join Paul and Scott as they lead this discussion about starting and sustaining the process of iPad implementation.	<p>Paul Erickson has been the principal of Inman Elementary School for 4 years. IES is a school in which learning is maximized through tech-rich opportunities.</p> <p>Scott Friesen has been the principal of Inman Junior/Senior High for 10 years. IHS/IJHS is a school in which learning is maximized through tech-rich opportunities.</p>	Administrators, teacher leaders, and tech directors who are interested in the process of iPad implementation.	
1E	Jann Glidewell	We will be exploring applications that can be used not only in a foreign language class but in every curriculum. eClicker and the smartboard will be explored and also examples of various iPad tools used by Spanish students.	This is my 2nd year teaching Spanish at IHS. My teaching career has allowed my usage of technology while teaching 7 and 8th grade self contained classrooms, high school English and Spanish and as a Media Specialist.	Every teacher wanting to use various tools for his/her curriculum.	eClicker
1F	Cameron Traxson	Calling all coaches- Lets explore a wide range of coaching apps that are available for coaches.	Cameron Traxson is in his fifth year teaching at Inman. In those five years he has transitioned from a one-to-one laptop setting to a one-to-one iPad classroom.	Coaches and classroom teachers.	ubersense

TIP From Last Year's Summit: You may want to have your IOS updated to 6.1.3 and also update all of your apps. Last year some participants were running on a different IOS version or app version than the presenters. For some people that was an issue.

Session Number	Presenter Name	Description	About the presenter. . .	Intended Audience	Possible Apps Needed or that May Be Demonstrated.
2A	Jason Lindstrom	iMovie in the social studies classroom. Examples of assignments for both history and government including grading rubrics will be shared with those attending. Participants will also be given time to create an imovie of their own.	I received my teaching degree from Ohio University. This is my 2nd full year of teaching American History and Government at Inman High School.	The presentation would focus mainly on social studies but could easily be transferred to English or anyone who wants to learn more about iMovie in the classroom.	iMovie
2B	Kimberly Herron	Any Many Miny Mo - which app is the one to make this project go? Bring your ideas to the table as we discuss creating your lesson plan from brainstorming ideas to outlining the lesson with the apps to bring out the creative thinking in you and your students.	Kim is a 6th grade teacher that integrates the many resources available to apply into everyday learning in the classroom. Motivated by student interest, Common Core skills are seamlessly integrated into project creation as learning comes to life in her classroom.	Grades 5 - 12	
2C	Kayla Woods and Jodi Case	Early childhood apps for workstation use in the classroom.	Kayla Woods is a Kindergarten teacher with 6 years of experience in all day Kindergarten. Jodi Case is a preschool teacher with 20 plus years of early kindergarten and preschool experience.	PK-1st grade teachers.	LetterSchool
2D	Abram Brenging	Integration of the iPad into the art classroom. Learn how to use the iPad as a tool to create, store and share visual artwork. Learn about digital drawing/painting apps, photography apps, and how to create and share digital lessons for instruction in the digital age.	Abe is graduate of Kansas State University with a Masters degree from Friends University in art education. He has thirteen years experience teaching visual art to students from kindergarten through high school.	Visual arts teachers, aspiring digital artists, photographers, and classroom teachers wanting to know more about creating. . . .	ArtRage, PS Express, PS Touch, Pixiromatic, Inkpad
2E	Kim Baldwin	This session will focus on how teachers can utilize the blogging platform of WordPress within a classroom for more than just blogging. Attendees will be shown the many features of WordPress and how they can incorporate it into their classrooms. Topics will include how to create a site for students to access a "digital file cabinet" to complete assignments, how to create comment and discussion boards, and how to provide links to audio and video files for student access. We will also discuss security features and hyper linking.	Kim Baldwin teaches English I and III at Inman High School. She is also the yearbook advisor. When she's not in the classroom, you can usually find Kim taking photographs or helping her husband Adam on their farm with their infant son Banks in tow.	Middle and high school teachers who would like to incorporate a digital class site for their students to access would benefit from this session. If you have ever considered breaking away from the confines of a school copy machine and making assignments available digitally to students, facilitating online discussions, or just creating a classroom website, this session is for you.	
2F	Lisa Stoss & Tyler Weinbrenner	In this session you will learn what apps we use for math and reading intervention groups. We will also discuss what apps we train and use with our paras.	Lisa Stoss is a Title I teacher K-6 at Inman Elementary School. Lisa has also taught First-Fourth grades. Tyler Weinbrenner is the 5-8 Special Education Teacher at Inman Elementary and Jr. High. This is his 4th year of teaching and first year in Special Education.	Intervention Math & Reading K-8, Special Education, Title, Paras	
2G	Brandi McWilliams	Take your game to the next level and pull all of the pieces together. We will have conversations and dialogue that weave together curriculum ideas and Common Core, while leveraging the power of technology.	Brandi McWilliams is originally from Denver, Colorado. She taught in Fort Lupton, Colorado for five years. While there she taught 6-12 English, Reading, and ESL. During her last year in Colorado she became an Instructional Coach and helped align the K-12 reading and writing curriculum. Currently Brandi is at Inman High School where she has taught 9-12 and College Composition for five years.	7-12 English Teachers/Core Content Teachers	Garage Band, iMovie, Keynote, Good Reader, Qrafter, Blackboard, Tools4Students, Live Binders, ComicBook

Session Number	Presenter Name	Description	About the presenter. . .	Intended Audience	Possible Apps Needed or that May Be Demonstrated.
3A	Cameron Traxson	In this session I will be showing how to use a green screen in the classroom with your iPads. For years our 5th grade teachers have been producing Colonial Commercials using computers, cameras, and iMovie software. Now with the versatility of an iPad those same teachers have found that with the right app the once complicated, multi-step project can now be a simple student project.	Cameron Traxson is in his fifth year teaching at Inman. In those five years he has transitioned from a one-to-one laptop setting to a one-to-one iPad classroom.	This session will be a great fit for any teachers who enjoy having their students do newscasts, interviews, music videos, historical video projects, and much much more. For the tech specialist out there, this is a must see.	iMovie
3B	Sharena Webb	This presentation will be centered around meeting the challenge of bringing technology into a traditional classroom. This will include tips for technology management, preventing student abuse of technological devices in class, and transitioning to increasing your digital presence without stressing out.	I taught high school science in Omaha, NE before taking a lengthy break from teaching to raise children and work part-time as an administrative assistant and church music director. After homeschooling for 3 years, I have returned to teaching public high school science with USD 448.	The target audience should be teachers who consider themselves more "traditional" and who have little or no experience with the use of technology in the classroom.	
3C	Aaron Dibbens	This presentation will discuss helpful apps used in Special Education at Inman Jr/Sr. High School. Primary focus will be on myHomework, Educreations, KhanAcademy, and how to discover apps that are beneficial to you while using social media.	Aaron has just completed his second year of teaching at Inman Jr./Sr. High School. With the challenges and rigors that Special Education brings, Aaron has used his experience with his iPad to manage his workload in communicating with Paraeducators, assistance with supplemental instructional activities, and as a tool to conventional classroom materials (whiteboards, markers,...etc.).	Special Education Teachers, Regular Education Teachers, new iPad users	myHomework, Educreations, KhanAcademy
3D	Jay Parsons	Need help teaching class when you are gone--just because you are gone doesn't mean you can't teach the lesson. Use the iPad to present a lesson to your classes and to distribute other materials to your classes.	I have taught math for over 20 years. Currently teach Geometry, Algebra, Advanced Math, and Calculus.	Intended more for math but can be used in any content area.	ShowMe, Educreations, Explain Everything, iMovie, QuickTime Player
3E	Lisa Stoss	In this session you will have time to explore tons of apps and how they are organized. This time will be devoted to exploration. Lisa will be available to help you with any questions you might have.	Lisa is a Title I teacher at Inman Elementary School. She has been teaching Title for 5 years. She has also taught grades first through fourth.	Teachers K-6, Title I, Special Education, Paras	

Session Number	Presenter Name	Description	About the presenter. . .	Intended Audience	Possible Apps Needed or that May Be Demonstrated.
4A	Bentley Richert and Keri Maurer	Bring your thoughts, questions, fears and excitement to share about implementing iPads into your classroom. During this session we will facilitate a discussion to address questions you have and even those you didn't know you had. Participants will be invited to showcase their favorite apps and plans to integrate the technology.	Keri and Bentley are fourth grade teachers who have been in a 1-to-1 iPad environment for two years. Our goal is to make iPads invisible in our classroom learning environment.	This roundtable discussion will target grades three through five.	
4B	Abby Epp	Easy ways to use your iPad for classroom management. Whether you have one iPad or 20, a variety of apps will be introduced to help your classroom run smoothly. Gauge student understanding, create learning resources so students get answers without interrupting group time, and even keep track of your classroom library books.	I am a third grade teacher, wife, and mother of two young girls. I love cooking, spending time with my family, and using technology to make my life easier. I'm just completing year 1 of a one to one iPad initiative in third grade.	Anyone interesting in using an iPad to make the classroom run a little smoother. Geared toward elementary but there will be something for everyone.	
4C	Kimberly Herron	Take a trip through your home town, state, or country. Explore the setting of your favorite book. Tour the world of Ancient Rome. Using Google Earth we will integrate all topics together highlighting Common Core skills as we take a venture in our learning trip.	Kimberly Herron brings world experiences and expectations into her 6th grade classroom through the utilization of project-based research, cooperative learning, computer software and web 2.0 tools and networks enhancing the educational experience of her students helping them achieve both academic and personal growth.	Grades 3 - 12	
4D	Scott Flaming	Dropped your iPad and need it repaired? Not to worry, help is there! I will share a brief tutorial for those who want to replace the screen without pulling out all of your hair!	My Name is Scott, sometimes known as Scottley to the social networking media. Ed. Tech is my career at an innovative 1:1 school district where I fix, break, think, and rethink.	Students, Tech Leaders and "Hands On" Learners.	
4E Repeat	Lisa Stoss	In this session you will have time to explore tons of apps and how they are organized. This time will be devoted to exploration. Lisa will be available to help you with any questions you might have.	Lisa is a Title I teacher at Inman Elementary School. She has been teaching Title for 5 years. She has also taught grades first through fourth.	Teachers K-6, Title I, Special Education, Paras	
4F	Kevin Case	Twitter--still hung up on Google Searches? Hear others talking about tweeting, hashtags, and @ and wonder what they are talking about? Spend some time getting to know Twitter and how it can save you time and grow your PLN.	Kevin is completing his 14th year as superintendent at USD No. 448. He has a passion for helping plan, organize and implement technology into the curriculum.	Come one, come all. Twitter is for anyone and everyone!	Twitter, Tweet Deck, HootSuite
