

District: 448 Inman
School: Inman Elementary School
Building Number:
Grades Served: PK3-6th Grades

A - Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

- Meeting professional development needs for staff and leadership
- Increased needs for social emotional challenges and needs of students

B - Identify the budget actions that should be taken to address and remove those barriers.

This school has a number of budget actions to consider when determining how to allocate funds to best meet the needs of our students. The following budget considerations could have the biggest impact on student achievement

- Increased salary to recruit and retain high quality certified and classified staff
- Funds to support professional development opportunities
- Funds to support social emotional challenges and needs of students
- More support at the primary level for interventions and behaviors

C - Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

Our building prioritizes academic growth, but is also committed to ensuring growth in other key areas. Continued work in addressing all of these areas makes it difficult to estimate a time that every student will achieve grade level proficiency on state assessments. Our goal is to make continued progress each year.

District: 448 Inman
School: Inman Jr/Sr High School
Building Number:
Grades Served: 7-12

A - Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

Key barriers that impact our schools ability to achieve grade level proficiency on state assessments include:

- Highly qualified teachers in all classrooms
- Meeting professional development needs for staff and leadership
- Schedule and staffing challenges that limit ability to implement interventions

B - Identify the budget actions that should be taken to address and remove those barriers.

This school has a number of budget actions to consider when determining how to allocate funds to best meet the needs of our students. The following budget considerations could have the biggest impact on student achievement

- Increased salary to recruit and retain high quality certified and classified staff
- Increased funds to enhance intervention efforts
- Funds to support professional development opportunities

C - Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

Our building prioritizes academic growth, but is also committed to ensuring growth in other key areas. Continued work in addressing all of these areas makes it difficult to estimate a time that every student will achieve grade level proficiency on state assessments.
